

My snowflakes

by Oscar s

This snowflake is a frozen snowflake. It will give you incredible power if it's broken. Did I say incredible yes incredible power so incredible you can rool the hole intire universe. The legend said it was found in anciant Ejipt. The ejips found it in a temple they said it was suking up all of the dark magic from the temple. the problem was how to brake it you would think it's easy to brake it but it is'nt because the ice is cursed [and also because it's power is great]. Now how to brake it you need a roket launcher, a flame thrower, a nuke, and a ak 47. there is also diffrent tipes of snowflakes. there is the obsidian snowflake, a normal snowflake and last but not least the dimond snowflake.
